- A translation of [Les petits êtres des fleurs](#) by [MiaQc](#)

On a distant planet, tiny humanoid beings are born from flowers with shiny petals. They feed on berries and nectar. Their lives are peaceful and they have never had to defend themselves against predators. One day, a dark cloud arrived on the planet and, with it, invaders. Flying insectoids creatures. The little flower beings are powerless against the flying creatures and they're quickly exterminated. Well, almost all of them. A small group survived and are now hiding underground. Now they must fight back or their planet will be doomed.
